

Gaia as opportunity of VO education

Hendrik Heint (*heint@ari.uni-heidelberg.de*)

Agenda

- The Gaia wave
- GAVO Gaia workshop
- Further collaboration

Talk presented in the EduIG session at the Northern spring Interop in Cape Town, May 2016.

The Gaia wave

At the annual meeting of the German Astronomical Society in September we presented a Gaia ADQL use case in two splinter meeting. The GAVO tutorial splinter had 8 participants whereas the Gaia splinter had 40 participants.

- Sad truth: Gaia seems to be more attractive than GAVO

VO tutorials for Gaia Data Access

- ESAC test server since March 2016
- GAVO ADQL hands on course
