REC date	13-Apr-10

	YES	Yes, but	NO	Comments to be brought to the Exec
WGs				
Apps	1			
DAL	1			With the hope that the matter of reference implementations and validators continues to be discussed
DM	1			
GWS	1			Although I note that the Document promotion process summary makes no mention of reference implementations
Registry	1			
Semantics	1			
VOEvent	1			
VOQL	1			
VOTable	1			
TCG	1			
IGs				
Astro-RG		1		I would note that the ToR of TCG and the content of the Document Standard Rec are strongly related to each other and an update of the ToR of the TCG should be made to reflect these.

Ref. Implementation 1 Not applicable. In practice, the document has already been in use for the recent standards recommendation process.

Ref. Implementation 2

Recommendations to EXEC	<p>The IVOA Standard Document v1.2 has been in use for various recent IVOA recent recommendations. Extensive discussion has taken place in the interop community and in the TCG to ensure clarification of the process. One of the contentious point of discussion has been the requirements about reference implementations and / or validators, but we believe we have found a good compromise on this point.</p> <p>The process was presented by the TCG chair at the opening plenary of the Garching Interop meeting in November 2009.</p> <p>Hence, the TCG recommends the EXEC to approve IVOA Standard Document 1.2 as an IVOA Recommendation. At the same time, the TCG has updated its ToR, as asked by the Exec, to reflect the points raised by the Astro-RG IG. Any new issue that may arise will be taken care of in the 1.3 version the IVOA Standard Document</p>
