Semantics

Norman Gray & Mireille Louys

IVOA Interop, Madrid, 2014 May 19

- VOUnits: awaiting Exec approval

- planetary science UCDs: Baptiste Cecconi, VO-Paris

- participation in the Datalink (DAL) and Provenance (DM) development processes

- machine learning experiments: allocating UCDs

norman gray

Wednesday 12:00–13:30

- Nicolas Moreau: Vocabulary developments in Paris

- Baptiste Cecconni: UCD extension for planetary data

- Norman Gray: Machine learning, and the identification of UCDs

- Norman/Sébastien: VOUnits discussion (5 mins)

- General discussion: WG next projects

Wednesday, 17:00–18:30

▎ André Schaaff: The Oculus Rift and dataset navigation

▎ Kristin Riebe: Distributed Data and MariaDB and Spider engine

▎ Ray Plante, Theresa Dower: WWT HTML5/WebGL Client with Oculus Rift (and 3D printing!)

▎ (and you…?)

Astronomy and Computing

Special issues

- VO (ed. Bob Hanisch; in progress)

- Data formats in astronomy (to be confirmed)

- Large software projects in astronomy (in planning)
