# Session on Friday April 29 at 5:00 UTC

Thanks to Gilles for his presentation about how to find the origin of Vizier tables in the VO

Definitely a good idea to add provenance / metadata information into standards. Naming is hard and giving people explicit areas where they can put the information will help a lot. People don't want to have to come up with the names themselves.

Interesting discussion.

DOI a promise for Data Preservation.

Thanks to all the the followers and active participants during these four years !
