

# Publication and Dissemination of IVOA Standards

*Alberto Accomazzi for the IVOA TCG  
IVOA Interop Nara  
Dec 8, 2010*

# Goals

- Provide wide dissemination of IVOA standards beyond “insiders”
- Provide the proper recognition to Authors and Editors for their work
- Provide standard ways for people within the astronomical community to cite them
- Track citations, usage, etc.

# Proposal

- All Documents officially “published” on the IVOA site should be submitted to arXiv by the Document Coordinator at appropriate times
- Since ADS indexes arXiv, all IVOA documents will be found in ADS and can be easily referenced
- “Final” documents (RECs) will have their own ADS record and be considered refereed publications
- Tracking between document versions is provided by arXiv (first) and ADS (later)

# Possible Scenarios

- One arXiv document across tracks, all versions, with updates between major revisions; one ADS “published” record
- One arXiv document across tracks for each major version, with updates between major revisions; one ADS “published” record for each major version
- Optionally: one DOI for each ADS “published” record

# Scenario I

NOTE-MyNewIdea-1.0-20081001.pdf	(initial idea)			
WD-ConciseName-0.1-20081225.pdf	(first Working Draft, in WG)	<a href="#">arXiv:0812.1234v1</a>	<a href="#">2008arXiv0812.1234H</a>
