

Science with SAMP-enabled Web Application

Ivan Zolotukhin

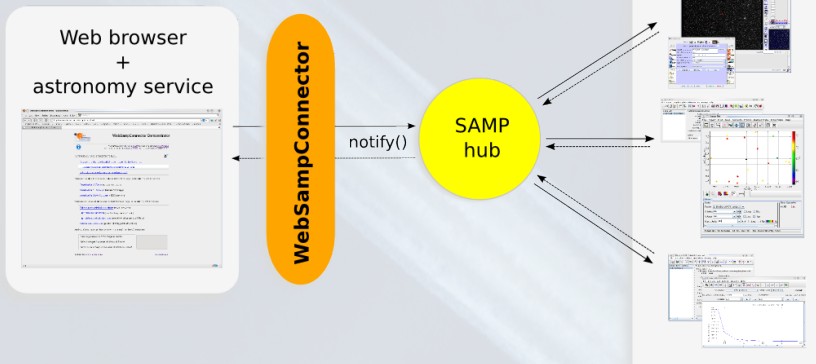

May 17, 2010

Intro

- ocl.sai.msu.ru
- Small catalog of Galactic open clusters discovered in the VO
- Django-based web application
- WebSampConnector (VO-Paris implementation of Ivan & Igor 2007 idea)
- Some JavaScript to make it persistent
- 0.1 FTE since last Interop

WebSampConnector

Demo

- Professional astronomer explores the site
- Virtual Observatory? Huh? What's that?

Future

- Get rid of Java 1.6 restriction
- Usability tests with eye-tracking camera
- 8hr tutorial in Paris in June
- 500k SDSS-UKIDSS galaxies catalog is on the list
