Registering IVOA software in ESCAPE

Content

The European ESCAPE project is creating a registry of software linked to the project. Our work package in ESCAPE is tasked with promoting IVOA standards and software within ESCAPE. We have started a discussion in ESCAPE about how to promote IVOA software in the context of ESCAPE. This session is to raise the same discussion at the IVOA, collecting thoughts ideas and suggestions about how to promote IVOA software to other communities.

Preferred talk time

Given the topic, European time zone would be best.

Comments:

Not sure which track this fits under. Probably the main one is Applications, but I expect some of the people involved in Registry and Semantics may want to contribute to this.
