

Edu IG at Interop May 2023

Closing remarks

Hendrik Heint, Shanshan Li

May 12, 2023

Newcomers session

- 20 participants in spite of happening in competition with the "exhilarating rollercoaster of fun".
- Much more (honest) feedback from newcomers to take into account for the future.
- In short: though the session worked, the concept did not work as good as it did remotely. Quite a bit to think about.

Lunch Sessions

- Huge success, we could help 100% of the 1 persons who showed up by pointing them to the usual suspects (Markus). Seriously: concept did not succeed, skip it next time.

EduIG Sessions

Shared session with DCP. 2 Talks

- Thomas Boch: "Generating HiPS from ESO/HST outreach images"
- Hendrik Heinl "Jupyter Notebooks for VO outreach"
