

Data Curation & Preservation

interest group

Chair, vice chair: G.Landais, G. Muench

China-VO Metadata Specification and PaperData Updates (C.Cui)

- Multiple schemas and identifiers (DOI, CSTR, ivoir)
- Ask for links in ADS.
→ **A possible use of BibVO**

IVOA and Datacite approaches (P.Lesidaner)

- Ask VOResource to include versions relations
- Discussion on Author/Contributor
- SPASE (Space Physics Archive Search and Extract) DataModel usage

DataOrigin status and its usage in astropy and ProvDM (G.Landais)

DOI discussion (A.Muench)

DOI plans for upcoming Rubin data release (T.Jeness)

- Proposal to use DOI for Instruments
→ see also PIDINST, RDA
- Ask relationType for exact or derived copy

Data Curation & Preservation

interest group

Let's curate and continue our job !

- **Data Origin** <https://www.ivoa.net/documents/DataOrigin/>
 - Todo: include DataOrigin in Models and in DALI
- **DOI**
 - Work on a DOI best Practice document
 - Propose DCP help (mailing-list) to Data Center for metadata understanding
- **BibVO**: <https://www.ivoa.net/documents/Notes/BibVO/>
 - JSON-LD format is postponed
 - See for an endorsed note

Stay in touch !
