

# Registry Working Group

---

## What We Do:

- Discoverability of and bibliographical tracking for VO-compatible data and services
- Build and maintain searchable metadata registry software per Open Archive Initiative and IVOA internal designs

(Including Registry of Registries: Recently moved to CADC. Thank you!)

## Documents We Manage:

- Standard descriptions of VO data and service resources, some embedded in other WG standards
- Data models for data/service metadata
- Best practices for registration and discoverability

Session at Nov 2020 Interop: **Registry and Semantics Th Nov 19, 2020, 15:00 UTC (10:00 EST)**

Sebastien Derriere	Upgrading the largest VO publishing registry
Markus Demleitner	Vocabularies in the VO 2: Implementations and Applications
