

Theory Interest Group at IVOA

20:30 UTC 4 November 2021

Chair: Gerard Lemson

Vice-chair: Simon O'Toole

Discussion items

1. Implementations of SimDM (and SimDB)
 1. Intro
 2. Implementation experiences at Paris Observatory
2. Standard libraries for accessing *cosmological simulations* on science platforms
 1. Intro
 2. The yt library and others
3. Data model for products of *cosmological simulations*
 1. Intro
 2. Raw data vs post-processed data
