

Radio Astronomy Interest Group

Opening Session

Chair: Mark Kettenis

Vice-Chair: Ricardo Rizzo

November 2024, Malta

What happened since Sydney?

- Francois Bonnarel retired, Ricardo Rizzo now vice-chair
- Some progress on ObsCore Radio Extension
 - Dropped freq_min/max
 - JIVE now has a full prototype for visibility data (based on DaCHS)
 - Moved to PR (but didn't start RFC yet)
 - Align with CAOM?
 - Co-existence with possible other ObsCore extensions (i.e. High Energy)?

Radio IG Session: Sunday November 17 @09:00

Aula Magna

- Presentation on LOFAR Solar/Space Weather data
 - By Mattia Mancini from ASTRON
- Discussion on ObsCore (radio) extension
 - Queries that combine extensions?
 - Discoverability of extensions?
 - Commonalities that should move back into “core”
