

Document Standards

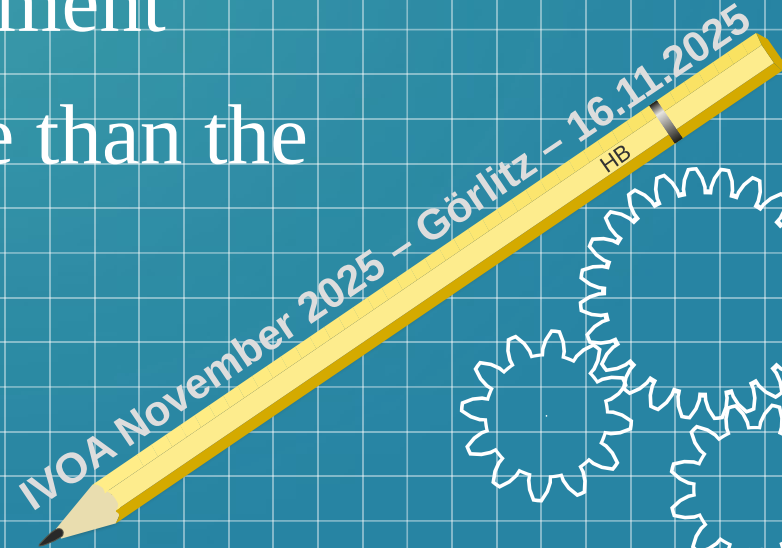

moving on from 2.0

Rationale

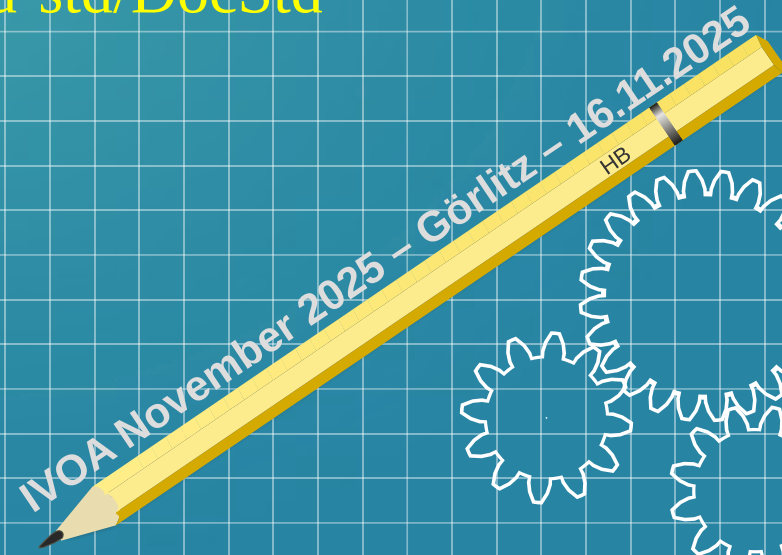

- Documented processes turned out different in w.r.t. the actual implementation
- Need clarification & re-alignment
- Standards are definitely more than the written text

Source porting

- REC-DocStd-2.0
 - Ported to ivoatex
 - Loaded into <https://github.com/ivoa-std/DocStd>
 - Started to put issues on it

Current list of issues

☐	Open	6	Closed	1
☐	☒	XSDs in the Repo: when?	#7 · msdemlei opened on May 24	
☐	☒	Versions 0.x	#6 · msdemlei opened on May 6	
☐	☒	Sect 1.1: Status	#5 · msdemlei opened on May 6	
☐	☒	Process Sketches	#4 · msdemlei opened on May 6	
☐	☒	Replace the text on templates	#3 · msdemlei opened on May 6	
☐	☒	Initiating ENs	#1 · msdemlei opened on May 6	

- how to initiate the EN process / what is an EN?
- move formally to ivoatex as document template
- document process diagrams
- status declaration: promote into the normative section
- iWDs, 0.x starts and >1.x external documents
- XSDs (& other) and the repo: 5W+ H
