

THE US NATIONAL VIRTUAL OBSERVATORY

Current status of standards

Matthew J. Graham (Caltech, NVO)

VOSpace 1.1

- RFC: 29 Sept – 27 Oct 2008
- Standalone version (v1.14) released 13 Oct 2008
- Versioning issue:
 - Integer increments for non-compatibility
 - Applies to every service version which requires a namespace change

Credential Delegation Protocol

- RFC: 26 Sept – 24 Oct 2008
- Comments:
 - Formatting and layout:
 - R Plante to reedit final version
 - Is this document necessary?
 - Not Globus delegation:
 - RESTful
 - No extra parameters to DAL services
 - No authentication of delegation
 - G Rixon to add justification to introduction

Working Drafts

- WS Basic Profile 1.0 (16 Sept 2008)
 - Dependent on VOSI
- Universal Worker Service 1.0
 - Stay one step ahead of TAP
- VO Standard Interface 1.0
 - Dependent on VODataService
