

Time Domain Interest Group Opening Session

Chair: Ada Nebot

Vice-chair: Dave Morris

Several TDIG related presentations in Apps, DAL and DM WGs

Presentations and discussions cover the following topics:

- Visualisation and representation of time series data (DM)
- Connecting data in space and time to find where and when using ST-MOC (Apps)
- Searching tabular data via cone search and extending to time domain (DAL)

Source DM (Friday October 11, 13h30 - 15h, Room DOT)

Speaker	Title	Time	Material
Laurent Michel	Introduction	5'	
Gilles Landais	Mapping Vizier meta-data on a source DM	15'	
Maria.Arevalo Sanchez	Catalogs of variables objects	15'	
François Bonnarel	Data annotations	15'	
Laurent Michel	CAB-MSD note presentation	20'	
	Discussion and Wrap-up		

DAL main session

Status, progress, feedback on DAL standards			
Saturday October 12, 13:30-15:00, DOT			
Speaker	Title	Time	Material
Pat Dowler	DALI session summary	15'	
Laurent Michel/Gregory Mantelet	Retrieving complex data in TAP services	15'	
Gregory Mantelet	feedback report on the implementation of ADQL-2.1	15'	
Ada Nebot	Simple Cone Search extension to Time Search	15'	
	discussion buffer	30'	

Apps 2

Saturday, October 12, 15:30--17:00, DOT

Speaker	Title	Materials	Time
Mark Taylor	Discussion on Web SAMP and HTTPS		15
Pierre Fernique	HiPS : 2 years after the IVOA standard		15
Thomas Boch	<i>hips2fits</i> , CDS effort to create a service generating FITS cutouts from HiPS tiles		12
Matthieu Baumann	Recent STMOC developments at CDS: support in MOCPy, STMOC for VizieR tables		12
Pierre Fernique, Ada Nebot	ST-MOC Discussion		8
Tom Donaldson	Apps Standards Documents: Status, Plans and Process		15
