IVOA Roadmap

- Lots of information presented / learned during the Interop – How does it fold into the existing Roadmap for your group ??
- WGs and IGs – New Roadmap posted; please update in the next several weeks
- Roadmap includes plans and goals – details for the next ~6 months and longer term goals

IVOA Roadmap for 2022B

This outlines the roadmap for development activities by the various IVOA working and interest groups between the Oct 2022 and May 2023 Interops

If you're new to the IVOA and missed the Newcomers session – I recommend the Video!!

All Interop sessions and presentations have a recording!!

Thank you to CANFAR for hosting the videos!!

Few Thoughts ...

- Welcome to new IVOA members SKAO and Kazakhstan
- VO in the Cloud and GWS sessions highlighted the exciting work with Science Platforms ... expect follow up during the next semester and at the spring meeting
- DOIs were identified as a topic for a Plenary session at the next Interop – that suggestion will be followed up
- Review Obscore extension for Radio and consider if there could be a roadmap for other wavebands such as X-ray
- Looking forward to an In-person meeting in spring – we will continue to support a Hybrid meeting for those who can't travel

Thank you for your Participation!!!
