

WD-DALI-1.1

- Changes from DALI-1.0
 - REQUEST no longer required; recommended if a capability has multiple modes/operations
 - VERSION removed
 - DALI-examples explicitly permits services to define additional RDFa properties

WD-DALI-1.1

- define common xtype values for use in VOTable (field and param)

datatype	arraysize	xtype	examples		
char	*	timestamp	2015-10-31	2015-10-31T12:34:56	
double	2	interval	-Inf 0.0	2.0 3.0	2.0 Inf
double	2	point	12.3 45.6		
double	3	circle	12.3 45.6 0.2		
double	*	polygon	3.0 3.0 5.0 3.0 4.0 4.0		
		???			

- replaces non-standard STC-S usage that was tacked into TAP-1.0 (e.g. remove all the string metadata: values are numbers)
