

CSP Meeting 04.02.2022

Agenda:

Revision of the RoadMap

- 1 - Keep up with community feedback (continuous effort)
- 2 - Participate to the running meetings (continuous effort)
- 3 - Follow up on data formats such as parquet files, PSRFITS (ongoing)
- 4 - Evaluate the need of SLAP V2 <https://www.ivoa.net/documents/SLAP/20190409/> versus LineTAP <https://github.com/mmpcn/slapvamdc>. Promote dev of one against the other or both? Collect science cases?
- 5 - Coming missions & data distribution plans. Survey?

Brief notes :

- Main discussion around point 5.
- Draft a survey and send around for comments.
- We decided to iterate via email for feedback on the survey drafted.
- Keep the Exec also in the loop and ask for comments.
- Report results at the next interop
- Organisation of CSP session and contribution to the newcomers session:
 - Newcomers session introduction - pre-interop - add a CSP presentation
 - CSP session: Sharing your data into the VO (summary of the survey + presentations of “newcomers” to the VO)
