

# Special Plenary Sessions: Validation and Verification

*(or should it be Verification and Validation?)*

Ray Plante  
Opening Plenary

# Motivation

- Beyond standards
  - User success is increasingly dependent on working/robust services
  - Which services are up? Which are compliant?
  - A problem with one service can reflect badly on the entire VO
- Session Agendas emphasize discussion
  - Specific Discussion questions
    - Where do we invest? How much?
  - Think about your own experience

# Agenda

- Session 1: Operations and Applications  
Tuesday 9am
  - Review of past discussions & recommendations
  - Operational Health
  - Application Development
- Session 2: Curation and Compliance  
Thursday 2pm
  - Registry Curation
  - Standards Compliance
    - [Validators](#)
    - [Service toolkits](#)
