

Data Curation and Preservation

F. Genova & A. Accomazzi

May 2014, Plenary 1

- No formal session this time, we can discuss informally and I can report at Plenary 2
- On-going topics of interest:
 - The Research Data Alliance, how to liaise from an astronomy/IVOA perspective
 - Topics of interest include **data publication**, **PID**, etc.
 - Bottom-up work, participation is open to all
 - First outcomes in September
 - Next Plenary 22-24 September 2014, Amsterdam
 - In the USA the National Data Service initiative
 - An Open framework of national scale services that will, individually and collectively, enable the efficient, convenient, and secure storage, sharing, publication, discovery, verification, and attribution of data
