

Semantic WG Current Status

Banff Interoperability Meeting , Oct 2014

Mireille Louys, on behalf of Norman Gray

1 session today

11:00 -12:30 Black Bear

combined with DataCP

UCD Unified Content Descriptor

Presentation :UCDs for Planetary Science

- New UCD Working draft issued with proposed additions for planetary and solar data. (09-05, 2014)
- Tests going on for use-cases in UCD assignment
 - Examples of planetary and solar datasets

General discussion

- « Extension is not parametrisation »
 - em.line. (atom/mol) to add
- If I had a new UCD for my specific column....
request from M.Demleitner for a 'preview' field
