Edu IG Rationale

Contributing to Edu IG

IVOA Interop, Waikoloa HI, September 26 – 28 2013

Massimo Ramella

From the Rationale: Communications

1. Open communication channels with projects active in astronomy and education
2. Collect desiderata/requirements from educators
3. Submit relevant information to IVOA WGs and communicate possible IVOA decisions to educators

Item 1:

- Collaboration with the SRT network of EU HOU – MW
- Collaboration with UiR, the Italian Remote Telescopes Network
- Participation to the EU “Astronet” project
 - Info exchange with several projects dealing with astronomy education and teacher training

Item 2:

- Publish data of educational telescopes in VO
- Archive of educational documents/tutorials/etc

Item 3:

- VO for education: archive prototype
- Registration of documents/tutorials/etc as educational resources

Rationale

Astronomy is undergoing major transformations. Perhaps the most significant for the future is the large investment into few cutting edge instruments with extreme technical specifications and performances.
