

IVOA Interest Group in Education

Chair: Massimo Ramella
Vice-Chair: Sudhanshu Barway

IVOA Interop, Waikoloa HI, September 26 – 28 2013

Playing with exoplanets data using VO

Presented by Pierre Le Sidaner

1. Very interesting use case in a field new to VO but of very high interest for POE
2. Captivating presentation
3. A perfect example of a document/tutorial resource that should be possible to search for in registries (MM: Existing VOR + RegExts?)

Registration of edu resources in VO

Presented by Marco Molinaro

1. Amount of data from educational telescopes increasing WW. Publication in VO requested
2. Tag edu data? Proposed path: curated registry, VOResource:ContentLevel 'simplification'
3. Simplified publishing/curation tools for enlightened users rather than professional astronomers

WWT and education

Presented by Jonathan Fay

1. Very wide diffusion
2. State of the art graphics and appealing features (HTML5+WebGL)
3. Goal: merge research and education
4. Efficient Ambassador program

Roadmap 2013-2014

1. Develop/test edu data publication in VO with SRT network of EU-Hands-On-Universe and UiR optical telescope network
2. Develop prototype of archiving application
3. Propose implementation of registration of edu document/tutorial resources + use cases
4. Start gathering resources to be registered
