

Time Domain Interest Group

Chair: John Swinbank
Deputy: Mike Fitzpatrick

IVOA September 26, 2013 – Waikoloa, HI

TDIG – Closing Plenary

Document Progress

- VOEventRegExt
 - Small final push all that is needed for completion, plan to use capability description to guide implementation/services
 - Will complete text and begin process for May14 PR
- SimpleTimeSeries
 - Need to solicit comments and finalize text for May14 Note
- VOEvent Transport Protocol (VTP)
 - Will renew call for input to finalize WD
 - Having working implementations, planned for May14 PR

TDIG – Closing Plenary

Document Progress

- VOEvent v2.0
 - Need to review text mentioning *VOEventStream* since the *RegExt* supersedes this (unfinished) document
- VOEventContainer – *New*
 - Will draft a Note/WD specification for a standard method to bundle multiple VOEvents and/or associated files for transport
 - Needed for large projects producing multiple events quickly (LSST)
 - Needed for Annotators/Brokers/Services producing streams of events

TDIG – Closing Plenary

Wiki Updates / Community Building

- Reorganize the wiki page to better reflect the change to an IG
- Will add links to software and projects of interest to the Time Domain community,
 - particularly new users and projects
- Will investigate the opportunity to recycle *voevent.org* as neutral ground between IVOA and Hotwired communities
 - Serve as a landing page for new users, large/small projects, science efforts, etc
