

Solar System Interest Group

IVOA May 2021 - Closing

Baptiste Cecconi (Obs. Paris) [chair]

Steve Joy (UCLA & NASA/PDS) [co-chair]

Solar-System Interop May 2021

- **EPN-TAP 2.0**
Move to PR in the coming weeks, stay tuned
- **VESPA-Cloud**
Prototype implementation of VESPA provider service (DaCHS) on European Open Science Cloud. Usage of AAI for delegating authentication: IVOA SSO tool must be compliant with existing AAI
- **Semantics:**
 - dataproduct_type discussion (RadioIG convergence)
 - offline discussion: restarting facility-list vocabulary
- **SSIG:**
 - Exoplanetary system modelling: need for dedicated workshop
 - New tool in ESA-Sky for solar system objects in ESA astronomy mission collections
 - Near-Earth Object database at ASI
 - low frequency radio astronomy EPN-TAP services
- **Registry:**
 - add UAT top level keywords on EPN-TAP registry records
 - need for Registry record update and curation (heavy lifting)
- A few new comers: Welcome ! (Especially Anne!)
And thanks for the feedback (even to recall us of the steep learning curve).

Solar System Interest Group

IVOA May 2021 - Closing

~~Daphne Comstock (Obs. Paris) [chair]~~
~~Steve Joy (UC/LA & Nasa/IBU) [vice-chair]~~

Anne Raugh (Univ. maryland & Nasa/PDS) [chair]

Baptiste Cecconi (Obs. Paris) [vice-chair]
