

Data Model Working Group

Chair: Mark Cresitello Dittmar - CfA

Vice-Chair: Mathieu Servillat - ObsParis

Current Roadmap (2025A)

- **MANGO 1.0: Model for ANnotating Generic Objects**

- Initiate RFC process

- **CAOM 2.5 Integration**

- Continue work on implementations (at CADC)
- Complete model document working draft
- Review recent work quantifying usage of individual ObsCore fields (deprecation candidates)
- Submit document and implementations for community review in preparation for RFC

- **ObsCore/RadioExtension reconciliation**

- Complete port of ObsCore -1.1 document to ivoatex and apply tag
- Make branch for v1.2 updates
- Schedule DM focus meetings
- Integrate core additions to ObsCore
- Radio Extension: Publish Note to formalize the requirements from the radio domain.

- **VO-DML 1.1:**

- Updates to facilitate database and code generation threads
- Create working draft document
- Review internally, and move through RFC process

Other topics to follow:

- LineTap
- Cube 1.0 / HEIG
- Provenance
- VOEvent 2.2

DM session
Paul Harrison

Regular DM running meetings

- About every (2) month(s)
- Announced on dm@ivoa.net
- Productive conversations, but a small group,
More participants would enrich the discussions!

→ <https://wiki.ivoa.net/twiki/bin/view/IVOA/IvoaDMRunningMeetings>

- Good participation to
High Energy Interest Group
(HEIG) meetings

Data Model session @ Görlitz meeting

- Saturday 15 Nov. 14h00 – 15h30 CET
- Wichernhaus « nadir" room
- 3 topics:
 - **VODML-1.1** (Paul Harrison)
The relationship between the recently published 1.1 WD and the VO-DML tools will be discussed
 - **CAOM-2.5** (Pat Dowler)
The Common Archive Observation Model
 - **ObsCore and Extensions** (Group)
Radio Domain ObsCore Extension: 2025-09-15
High Energy ObsCore Extension: 2025-11-12
Time Domain ObsCore Extension: 2024-07-17
