

IVOA Data Model WG

Opening @ Sesto, 2015
Jesús Salgado, Omar Laurino

DM1 session

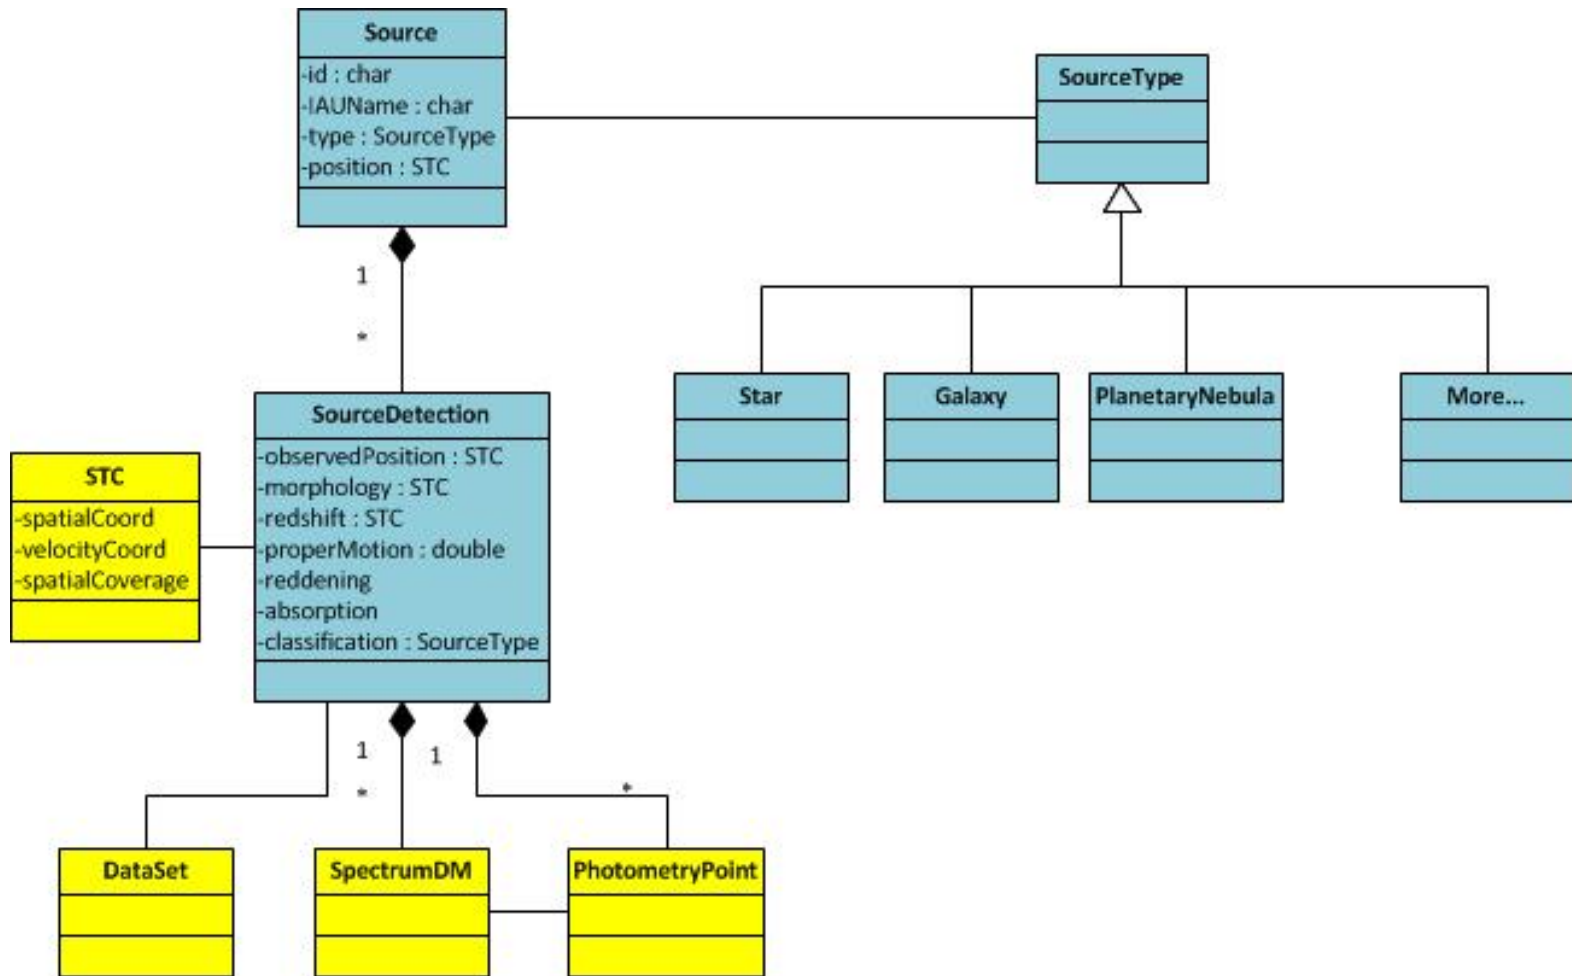

Monday June 16 16:00-17:30

- Baptiste Cecconi
 - EPNcore datamodel
- Kristin Riebe
 - Provenance DM status
- Mathieu Servillat
 - CTA Data Model
- Jesus Salgado
 - Source DM discussion

SourceDM

- Initial group created to discuss the scope of the DM
 - Gerard Lemson, Sebastien Derrier, Laurent Michel, Bruno Merin, Tom Donaldson, Arnold Rots and myself
- Scope will be discussed on DM1 and, of course, SourceDM is open for collaboration

SourceDM

DM2 session

Thursday June 18 09:00-10:30

- Mark Cresitello-Dittmar
 - CubeDM/DataSetDM
- Mark Cresitello-Dittmar
 - SpectralDM implementation status
- Arnold Rots
 - STC-2
- Gerard Lemson/Omar Laurino/Tom Donaldson/Pierre Fernique
 - VO/DML, VO/DML mapping and implementation discussion

ImageDM/CubeDM/SpectralDM

- Closer to have consistent DMs:
 - CubeDM
 - DataSetDM
- Status of these ongoing documents during DM2
- SpectralDM recommendation process was pending of implemenations
- New implementation and comments

VO/DML

- VO-DML: a consistent modelling language for IVOA data models
Version 1.0
- 06 February 2015
- Technical documentation of a DM
- Enough implementations

- Ready for RFC? – Talk on DM2

VO/DML

- Mapping Data Models to VOTable
- Version 1.0
- 27 April 2015 April
- Shared effort between DM and Apps
- Good advance and implementations

- Discussion on DM2
