

# Grid and Web Services Working Group

Session 1 – Workflows

André Schaaff, Andreas Wicenec

21 May 2014

***IVOA Madrid, 19-23 May 2014***

# Workflow story in GWS

- Presentations and discussions in the past interop meetings (at least at Trieste, Garching, Pune, Heidelberg, Hawaii)
- In 2013
  - An IVOA Note about « Scientific workflows in the VO »
  - A dedicated session in Heidelberg
  - A discussion in Hawaii about « right place of the workflows, in GWS ? »
  - PDL (Parameter Description Language) in the RFC process
    - Scope larger than workflows but a « natural » usage in this domain

## Today's talks

- **The ER-flow project and astronomical workflows** : current status and future perspectives, *Claudio Vuerli*
- **Creating a workflow with Taverna Workbench for the first time**, *Francisco Jiménez-Esteban*
- **AstroTaverna and VO workflows**, *Julian Garrido Sanchez*

# If remaining time

- Discussion : « and now, ... »
