IVOA Virtual Interop, 25-28/05/2021

Summary of the Wednesday Session

- Thanks to Yihan Tao for her talk about [NADC](#) Metadata Management for astronomical data in terms of standards and system.
- We had also a reminder of DCP areas of interest and examples of session topics.
- [DOI](#) Note writing is restarting.
- As usual a quick [RDA](#) (17th in April 2021) [feedback](#): keeping an eye on works around [Software](#).
- Many [FAIR](#) projects and events (FAIR Festival 2021) around the World, not easy to follow everything but important to share and report when possible
- Important also to report about projects like EOSC (and similars) which are growing quickly

Outcomes and roadmap

Discussion about next DCP **focus**:

- CoreTrustSeal (CTS) **Certification**: ongoing at CADC, James Dempsey worked on it and proposed to volunteer someone from his team to talk about it.
- =>**Certification** good candidate as **fall** interop DCP Session **focus**.
- other proposals welcome through mailing list and Slack channel.

Roadmap main objective to fall interop is to push **DOI Note** to **endorsement**, a citable work has a real added value.
