PLENARY OPENING SESSION

2011 Oct 17

Theory Interest Group

Status

- SimDM
  - In extended RFC until October 12th
  - http://www.ivoa.net/cgi-bin/twiki/bin/viewauth/IVOA/SimRFC
  - A few additional comments (replies during the week)
  - Next step: TCG review

- Next step : Accessing the layer and discovery of theoretical services and experiments

Agenda

- Theory - I: Monday 14:00 - 15:30 Bhaskara 2

  Goals:

  - discuss the last comments on SimDM gathered during the extended RFC,
  - prepare the DAL/Theory joint session,
  - check whether new theoretical project (e.g. IMPEX) can reuse SimDM 1.0,
  - discuss new ideas related to theory in the VO

- Talks/discussions

  - Michel Gangloff: IMPEX
  - Carlo Maria-Zwolf: Parameter Data Language
  - Discussion SimDAL

Agenda

- ## DAL/Theory session: Tuesday 16:30 - 18:00 Bhaskara 3

  Goals

  - explore the current ideas on what SimDAL must/should do to allow discovery and access all theoretical data
  - discuss which part of the SimDM could be registered
  - discuss the specific way TAP could be implemented in SimDAL and which tables has to be provided

- ## Talks/Discussions:

  - Hervé Wozniak: review of current ideas on SimDAL and SimDB
  - David Languignon: SimDAL
  - Discussion

Agenda

- IVOA Standards Implementation session: Tuesday 9:30 - 11:00
    - Implementation of Theory standards (F. Le Petit)
